RESTful APIs

Agile methodology

Software Design Patterns

### OBJECTIVE

To obtain a challenging software developer position where I can utilize my programming skills, technical knowledge, and problem-solving abilities to contribute to the success of the organization while continuously learning and growing in the field.

### WORK EXPERIENCE

#### Full Stack Java Development Learner

Geeks4Learning

2023-Present

- Actively pursuing mastery of the Spring Boot, PostgreSQL and Angular technology stack.
- Developed a chat system using the above stack, leveraging technologies like Apache Kafka for real-time messaging.
- Currently a Team Leader working in a group on a Learner Management System focusing on the Goal Management Microservice.
- As a Full Stack Developer, I am involved in the entire SDLC.

#### Software Developer Intern

Devoted Nano Technologies

2022-2023

- Building E-Commerce web application using Laravel, Vue.js and MySQL.
- Contributed to the development of RESTful APIs.
- Involved in the debugging sessions.

### EDUCATION

Rosebank College

#### Diploma in Software Development

2020-2022

Cum Laude

Eduvos

#### Higher Certificate in Information Systems

2016-2018
